SPECIAL ISSUE: BUCKLING STRENGTH OF IMPERFECTION-SENSITIVE SHELLS

Foreword vii

List of Contributors ix

Photograph of Participants of Euromech Colloquium 317 . . xiii

Buckling Strength of Imperfect Steel Hemispheres 1
J. BŁACHUT & G. D. GALLETLY (UK)

Imperfection Sensitivity of Elastic and Elastic–Plastic Torispherical Pressure Vessel Heads 21
Z. LU, H. OBRECHT & W. WUNDERLICH (Germany)

Buckling Behaviour of Imperfect Spherical Shells Subjected to Different Load Conditions 41
P. T. PEDERSEN & J. J. JENSEN (Denmark)

Imperfection Sensitivity of Internally-Pressurized Torispherical Shells 57
J. SORIĆ (Croatia)

Towards a Rationally Based Elastic–Plastic Shell Buckling Design Methodology 67
J. G. A. CROLL (UK)

Dynamic Buckling of Stiffened Cylindrical Shells of Revolution under a Transient Lateral Pressure Shock Wave 85
C. PÉDRON & A. COMBESCURE (France)

Buckling Analysis of a Cooling Tower Shell with Measured and Theoretically-Modelled Imperfections 107
M. RADWAŃSKA & Z. WASZCZSZYN (Poland)

Influence of Initial Imperfections on the Snap-Through of a Flat Conical Roof Stiffened by Meridional Stringers 123
V. KŘUPKA & P. PAŠČENKO (Czech Republic)

Collapse of Axially Compressed Cylindrical Shells with Random Imperfections 131
J. ARBOCZ & J. M. A. M. HOL (The Netherlands)

Buckling and Imperfection Sensitivity in the Optimization of Shell Structures 159
R. REITINGER & E. RAMM (Germany)

Stochastic Imperfection Modelling in Shell Buckling Studies . . 179
M. K. CHRYSSANTHOPOULOS (UK) & C. POGGI (Italy)

Loss of Stability of Thin, Elastic, Strongly Convex Shells of Revolution with Initial Imperfections, Subjected to Uniform Pressure. A Probabilistic Approach 201
I. TRENDAFILOVA & J. IVANOVA (Bulgaria)

Understanding Imperfection-Sensitivity in the Buckling of Thin-Walled Shells 215
C. R. CALLADINE (UK)

Influence of Geometric Imperfections on the Load Capacity of Orthotropic Stiffened and Composite Shells of Revolution with Arbitrary Meridians and Boundary Conditions 237
A. RITTWEGER, TH. SCHERMANN, H.-G. REIMERDES & H. ÖRY (Germany)

Creep Buckling of Cylindrical Shells Under External Lateral Pressure 255
A. SAMMARI & J. F. JULLIEN (France)

Effect of Imperfections on Wind-Loaded Cylindrical Shells . . 271
R. GREINER & P. DERLER (Austria)

On the Modelling of Different Types of Imperfections in Silo Shells 283
P. KNOEDEL, T. UMMENHOFER & U. SCHULZ (Germany)

Buckling of Cylindrical Shells Containing Granular Solids . . 295
K. KNEBEL & K. SCHWEIZERHOF (Germany)

Design Procedure for the Buckling Analysis of Reinforced Concrete Shells 313
E. DULÁCSKA & L. KOLLÁR (Hungary)

Buckling and Postbuckling Investigations of Imperfect Curved Stringer-Stiffened Composite Shells. Part A: Experimental Investigation and Effective Width Evaluation 323
H.-R. MEYER-PIENING & R. ANDEREGG (Switzerland)

Buckling and Postbuckling Investigations of Imperfect Curved Stringer-Stiffened Composite Shells. Part B: Computational Investigations 339
M. A. STIFTINGER, I. C. SKRNA-JAKL & F. G. RAMMERSTORFER (Austria)

Buckling and Postbuckling of Imperfect Cylindrical Shells Under External Pressure 351
W. GUGGENBERGER (Austria)

Experimental Analysis of the Influence of Imposed Displacements at the Base of a Cooling Tower on its Buckling Stability . . 367
R. KAŁUŻA & J. M. GIGIEL (Poland)

The Development of Shell Imperfection Measurement Techniques 379
J. SINGER & H. ABRAMOVICH (Israel)

A Global Plasticity Formulation Combined with a Semi-analytical Analysis of Imperfect Shells of Revolution 399
J. BIELSKI (Poland)
